EDUCATION

California State University, Fullerton

Fullerton, CA

Bachelor of Science, Computer Science

August 2023 – May 2025

- Relevant coursework: Software Engineering; Artificial Intelligence; Algorithm Engineering; Database Systems; Python Programming; Operating Systems; Compilers and Languages

Clovis Community College

Fresno, CA

Associate of Science, Computer Science

July 2020 – May 2023

- Dean's List; 3.8/4.0 GPA
- Relevant coursework: Object-Oriented Programming; Data Structures; Game Development; Web Development

PROJECTS

Portfolio Website | *HTML/CSS, JavaScript, jQuery, GitHub Pages, Google Domains*

- Designed and deployed a professional-grade website showcasing a diverse range of projects, employing HTML/CSS, JavaScript, and jQuery to create dynamic and interactive features
- Leveraged GitHub Pages and Google Domains to publish under a custom domain name, ensuring seamless accessibility and professional branding
- Continuously update and refine to showcase latest projects and demonstrate technical proficiency in web development

Stardew Valley Mods | *C#, SMAPI*

- Created highly sought-after mods for Stardew Valley, amassing a user base of over 20K downloads on the Nexus Mods platform
- Implemented innovative features and functionalities, leveraging C# and SMAPI framework to enhance gameplay and provide a unique gaming experience
- Proactively addressed user feedback, rapidly releasing bug fixes and updates to ensure a seamless and enjoyable modding experience

Stingbot | *Python, DiscordPy, Google Cloud Platform, Oracle*

- Developed an advanced Discord bot, utilizing Python, DiscordPy, Oracle, and Google Cloud Platform, to incentivize user activity and display comprehensive user statistics
- Ensured maximum uptime and data accuracy by hosting on Google Cloud Platform, employing scalable and reliable infrastructure
- Iteratively improved functionality, efficiency, and user experience through continuous updates and bug fixes

EXPERIENCE

Tutor (Team Leader)

January 2022 – May 2023

Clovis Community College

Fresno, CA

- Mentored and guided thousands of students to develop critical thinking and problem-solving skills in diverse subjects, including Computer Science, Information Systems, Math, Physics, and more
- Conducted comprehensive assessments of students' programming skills, providing detailed feedback and targeted guidance for improvement
- Collaborated with professors to design and deliver engaging learning materials, boosting students' confidence and proficiency in Computer Science topics

Astronomer

May 2022 – September 2022

NASA L'Space Mission Concept Academy

Remote

- Collaborated within a multidisciplinary team to design a Martian cave exploration mission
- Contributed extensively to research, analysis, and writing of a comprehensive 150+ page Preliminary Design Review (PDR), showcasing expertise in mission planning, scientific investigation, and engineering principles

TECHNICAL SKILLS

Languages: Python, C, C++, Java, JavaScript, HTML/CSS, SQL

Developer Tools: MySQL, Git, Sheets, UNIX, CI/CD, Netlify, Unreal Engine

Libraries: ReactJS, jQuery, SFML, DiscordPy, SMAPI
